Angle Adjustment Mechanism TM-SUA
(for BF10 and BF20)

1. Turn the touch computer upside down

2. Open the Angle Adjustment Mechanism and place it on the device in such a way that the holes in the mechanism align with the holes of the device, as shown on the image.

3. Fix the mechanism with the four supplied screws (Ph M4)

4. Press the plastic feet into the openings in the housing

5. To change the angle of the mechanism press the lever at the rear, tilt the display to the desired angle and release the lever to fix the position.

Only for BF20: The maximum angle can be increased by removing the blocking screw as indicated.
