

## Intercom USB Audio Device

The BF Intercom is successor of existing Speakerbox.

- » Compact design.
- » It can be used on its own, as USB audio device or in combination with a handset.
- » It can be expanded with a second speaker unit which allows for independent volume control for the left and right channel and has a digital input (e.g. foot-switch)
- » Besides this, it can be used in combination with the new BF03 as a very compact console solution.

**Intercom with Handset**

**Intercom with a second  
speaker unit**

**Intercom with BF03**

### Basic Technical Data
